

The Senco TN11L1 is the upgrade to the popular FIP23LXP, the most powerful headless pin tool in its class. The new TN11L1 is oil free thanks the Senco NEVERLUBE<sup>®</sup> oil-free design eliminating stains to the work surface.

The TN11L has power to drive up to 50 mm straight headless pins into hard substrates. Ideal for hard wood trim fixing as it leaves a much smaller hole to fill than tradition 16 & 18 & 21 gauge brad nails

**Features:**

- Adjusts for different fastener lengths depth of drive.
- Rear exhaust and adjustable belt hook
- Ultra-narrow nosepiece great for access into tight corners.
- Ergonomic handle for all-day comfort
- Includes carry case and wrench.
- Oil Free Design
- Kit includes 1 x 300 & 315 series air connection fitting
